“

We are OBSESSED with the boxes they have been shipping to our new coaching members! The process from the beginning has been so smooth and their communication is top-notch. I never feel like I have to follow up because they are on top of it! The presentation is beautiful and the macrons are delicious. So happy to have found them!

- Kelsey from Flight Media

I began working with Woops! earlier this year to create client gifts. I'm impressed with their quick & kind service. Their high-end packaging makes their product stand high above their competitors. Everyone we've sent these to has commented on what a lovely and delicious gift they are!
